- **Development Tools:** CommandLine/Terminal, Bower, Npm, Gulp, Browserify, BrowserSync, Homestead

ABOUT

I am pursuing a career in web development to engage my creative side, while also solving problems in a strategic way. Music and traveling are very strong passions of mine. While playing electric guitar for Hillsong Church, I had the opportunity to visit countries like England, Greece, Finland, Norway and Denmark. For the past 5 years I lived in Europe with my wife, who is Swedish. I love exploring different cultures, having lived on three continents has helped open my mind and given me a broader perspective on life.

EXPERIENCE

Freelance *Front end developer* **- Nashville**, TN(currently)

- Hollymeyers.com - A web portfolio, where I designed and developed for scratch using html, sass, jquery.
- Hinsonpoolcare.com - A small business website designed & developed using react.js & sass.

Textbook Charlie *Front end developer* **- Nashville**, TN 2016

- All development was in Laravel.
- Working mostly with html, css(bootstrap), and vue.js.

The IRON YARD *Front-End Engineering* **-** Nashville, TN 2015-2016

A program facilitating projects, requirements, and teaching skills to junior developers.
- 55+hours a week building web applications, using HTML, CSS, Javascript
- Project Planning, both individually & with a team
- Worked on cross-platform projects with Ruby on Rails server-side engineers.
- Final project, Drobe, a web app built with react.js using Parse as an infrastructure
